IDT™ Perfect piecing!

IDT™ guarantees that the feed dogs are perfectly synchronized! Only Pfaff has IDT™ built into its sewing machines.

Checks and stripes match exactly.

ABSOLUTELY EVEN FABRIC FEED FROM BOTH THE TOP AND BOTTOM WITH IDT™ – INTEGRATED DUAL FEED!

During sewing, the fabric is fed simultaneously from both the top and bottom. Absolutely nothing can slip when working with fine fabrics or several layers.

It's wonderful for quilting because piecing and quilt blocks match exactly. Even long lengths of heavy fabrics (typical for home decorating projects) can easily be sewn from beginning to end.

Convenient features with the performance²⁰⁵⁸ make your sewing easier!

The electronic kneelift frees your hands for guiding of quilts, garments or any project. The presser foot is raised and lowered at your command.

A large high-resolution touch screen provides easy access to stitches and programs.

Pure innovation is reflected in a uniquely beautiful design, the features and the ease of use. A high-resolution touch screen lies at the heart of the Pfaff performance²⁰⁵⁸.

Just a light touch of the stylus or finger opens all the possibilities of this machine: stitches, sewing functions, and programs. Whatever you are sewing, it's displayed there for you. The information you need is at your fingertips – whenever you need it.

The Pfaff performance²⁰⁵⁸ sets new standards in all areas of sewing.

Try the Pfaff performance programs!

These special features make sewing a true pleasure.

Also try the extensive Pfaff performance²⁰⁵⁸ stitch package, with a wide selection of utility and decorative stitches, all sewn with exact precision. You can even design your own unique 9 mm decorative stitches!
