**Wonderful embellishments!** Your overlock machine can also be used for decorating quilts. The chainstitch – as a three-dimensional decorative seam – and the enchanting triple coverstitch. Sophisticated details that make your quilt truly special. Thick threads? No problem for the PFAFF® coverlock™ machines.

## New INSPIRA™ Overlock presser feet at your dealer now! Professional results – more possibilities

#### Pearls are real eyecatchers!

The Beading Foot smoothly guides pearls through a guide on the foot so you may apply them to edges of garments or crafts.

Part No: 6200866-96

#### Quick and easy – Sew on elastic webbing!

The Elastic Foot guides and stretches narrow elastic (6–12 mm/ 1/4 – 1/2 inch) as you sew it to the fabric. Use it for active wear, lingerie and other elastic insertion techniques.

Part No: 6200865-96

#### Professional results – piping with an overlock!

The Piping Foot is perfect for sewing ready-made piping in seams and to edges for a tailored finish. The trim is sewn between the two layers of fabric in one operation. A groove in the base of the foot helps guide the piping exactly. It's also perfect for creating your own trim when the color you want isn't available ready-made! The Piping Foot makes both the covering of cords with fabric and the insertion process faster, easier and more professional!

Part No: 6200867-96

Also new!! Ask your dealer for the new Blindhem and Lace Foot, perfect for sewing invisible hems and for the Taping Foot used for sewing on tapes to prevent the seams from stretching.
