- 40wt Gütermann Sulky Rayon Embroidery thread to match appliqué fabric
- Gütermann Sulky Filmoplast
- Gütermann Sulky Tear Easy
- HT2 textile glue

PFAFF® Sewing Machines

- PFAFF® creative™ sewing and/or embroidery machine

Instructions

Press all four edges of fabric piece to wrong side, twice 3/8" (1cm) wide, and edge stitch in place. Tack rickrack to fabric piece with HT2 textile glue, and then stitch it in place, stitching along the center of the rickrack.

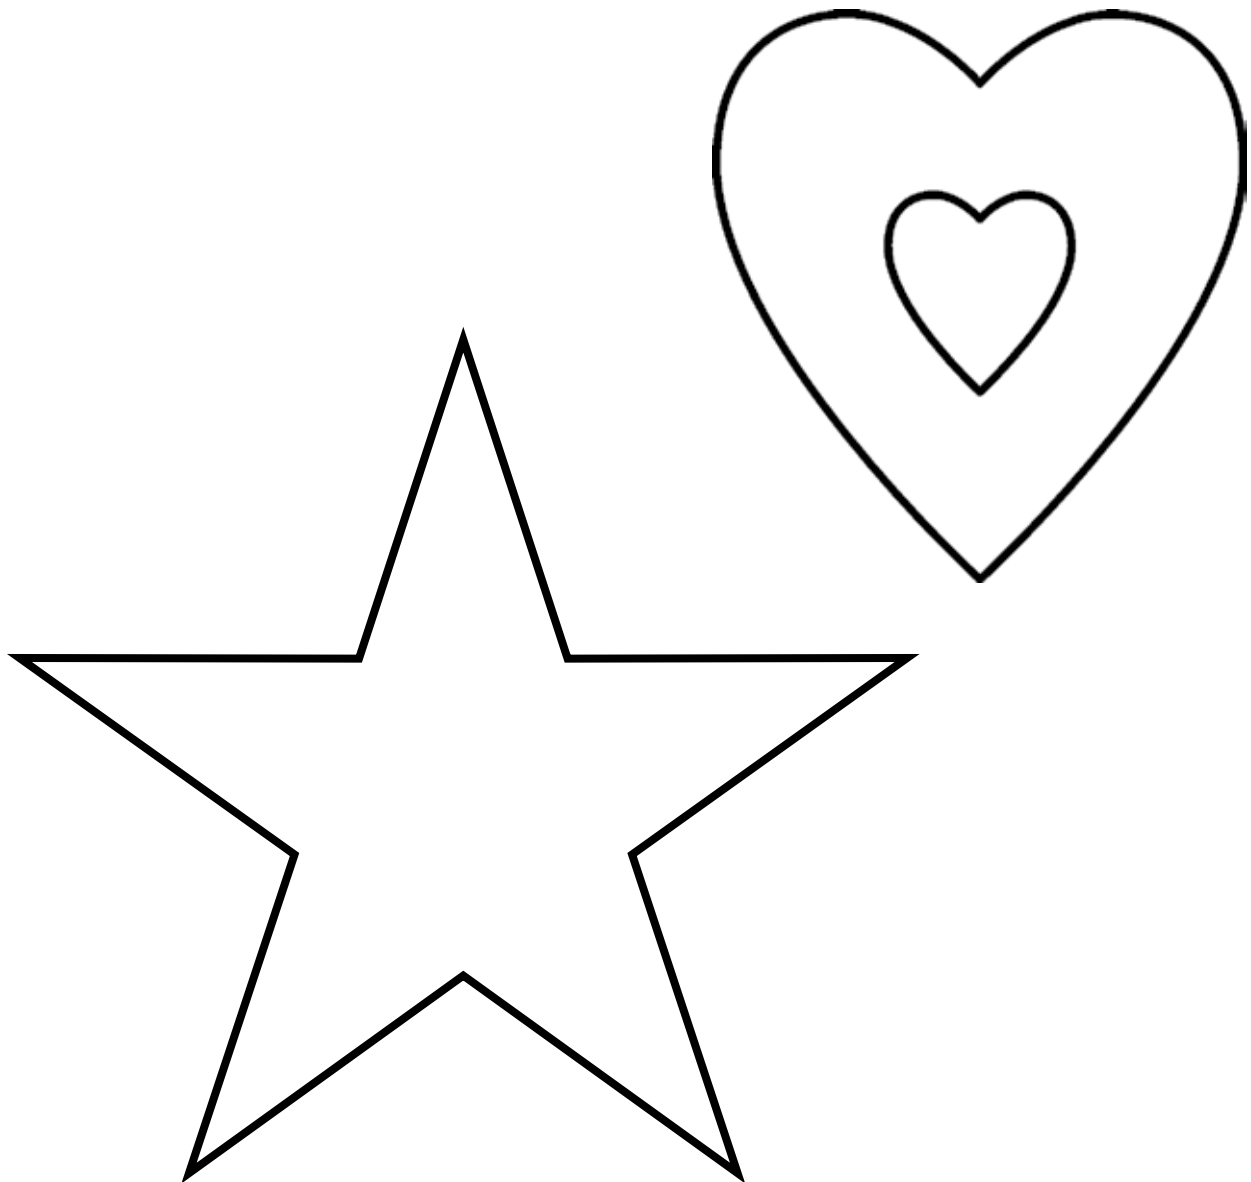

For the neck band, press the floral or plaid fabric piece in half lengthwise. Then press each long edge to wrong side, 5/8" (1.5cm) wide. Edge stitch fold edges together. Run each end of fabric strip through a brace clip, turn end to inside, twice by approx. 3/4" (2cm), and secure.

For the appliqué, select the desired pattern from the center of the brochure or download a free embroidery design at www.pfaff.com.

To embroider, for example with the PFAFF® creative vision™, back the fabric with Gütermann Sulky Tear Easy and appliqué the pattern in the center of the fabric. After stitching, remove the excess Tear Easy.

To appliqué with a standard sewing machine, back the fabric with Gütermann Sulky Filmoplast and stitch around the edges of the selected appliqué with closely spaced zigzag stitching.
